

Kevin Kaiser

Developer / Designer / Creator

I have over 20 years of professional experience in just about every aspect of programming, graphic design and general development for desktop, server, tablet, mobile, wearable and beyond.

I'm an expert in front-end and back-end technologies, database design and administration, network architecture and administration, data modeling and visualization, cloud infrastructure, e-commerce, hardware, middle-ware, APIs, you name it.

Supplemental skills include sound design, print design, apparel design and video editing, as well as many applicable soft skills (communication, creativity, accountability, etc).

Work History

2017 – now : Freelance - Columbus, OH

I worked in the crypto / blockchain space, actively trading and developing tools that integrate with the world's top cryptocurrency exchanges, as well as consulting on a number of other apps and agency-led web projects.

2010 – 2017 : Resource / Ammirati - Columbus, OH - **Lead Developer**

I directly worked or lead tech on projects for clients such as DSW, Victoria's Secret, VSX, Bath and Body Works, The Ohio State University, Barnes & Noble, Sherwin-Williams, Nestle, Nike, DiGiorno and United Dairy Farmers.

I built iOS apps, full website redesigns, e-commerce implementations, created living style guides and training documentation, built Facebook chat bots and much more.

2003 – 2010 : Data Resolutions, Inc - Columbus, OH - **Lead Developer**

Clients: OSU, Germain Automotive Group, Quaker Steak & Lube, Damon's Grill.

Skills

HTML, CSS, JavaScript

PHP, Node.js, AWS

Objective-C, Swift (*iOS, watchOS, tvOS*)
